

Equipment Manual

User instructions and safety guidelines for medical devices

General Safety Guidelines

- 1 Always read the user manual before operating any equipment
- 2 Ensure proper electrical connections and grounding
- 3 Keep equipment away from water and moisture
- 4 Do not use damaged cables or devices
- 5 Only trained personnel should operate critical devices

Ventilator / BiPAP Usage

- 1 Check mask fitting before starting
- 2 Set prescribed pressure levels
- 3 Monitor patient comfort and breathing
- 4 Clean mask and tubing regularly

Oxygen Concentrator Instructions

- 1 Place in a well-ventilated area
- 2 Do not block air filters
- 3 Check oxygen flow rate settings
- 4 Avoid smoking near oxygen equipment

Suction Machine Usage

- 1 Use sterile suction catheters
- 2 Adjust suction pressure properly
- 3 Clean collection jar after each use
- 4 Dispose of waste safely

Patient Monitor Guidelines

- 1 Attach sensors correctly

- 2 Regularly check readings
- 3 Respond immediately to alarms
- 4 Keep device calibrated

Quick Safety Reference

Device	Key Safety Tip
Ventilator	Ensure correct pressure settings
Oxygen Concentrator	Keep away from flames
Suction Machine	Maintain hygiene
Patient Monitor	Check alarms regularly
